The radiology department at Optum combines superior clinical expertise in a 100% digital imaging environment to bring our patients an extraordinary level of care.

All services include state-of-the-art digital imaging equipment that allows immediate viewing access on PACS (Picture Archive and Communication System) to all our radiologists. Optum excels in having the finest interpretative team available across all modalities. The team includes board-certified radiologists with subspecialty expertise in body imaging, neuroradiology, musculoskeletal and women’s imaging. Your image receives a highly skilled and experienced approach from initial acquisition to diagnosis.

Timely results

It is important that patient concerns be addressed at the time of service, and this level of care is standard practice at all our locations.

Comprehensive excellence in breast imaging

Our breast imaging services include 3D tomosynthesis mammography. Breast MRI and associated biopsy services include ultrasound-guided, vacuum-assisted and 3D stereotactic guidance.

For your comfort

We offer MRI sedation services at select locations for patients with anxiety, claustrophobia, or those who are unable to remain still for an extended period of time.

In addition, we offer wide bore and open MRI machines to accommodate patients who may be claustrophobic, have wide shoulders or who may not fit into a traditional MRI enclosure. This new technology provides an option for higher quality imaging and better diagnostic ability.

Scheduling

To schedule an appointment at a radiology location near you, please visit our website at:

At Optum, our mission is to help people live healthier lives and to help make the health system work better for everyone.

Optum Medical Care

Any person depicted in the stock image is a model.

Optum Medical Care, P.C. and Optum Medical Care of New Jersey, P.C. (collectively “Optum Medical Care”) are physician owned and led practices having complete authority for all medical decision-making and patient care through its physicians and other licensed professionals. Optum, through its owned management organizations, provides non-clinical administrative services to support Optum Medical Care and its physicians. Neither Optum nor its management companies employs, engages, or supervises physicians or other licensed professionals, or determines or sets the methods, standards, or conduct of the practice of medicine or health care provided by Optum Medical Care or by any of its licensed professionals. “Part of Optum” reflects that Optum Medical Care is part of Optum’s effort to support forward-thinking physician practices in helping their patients live healthier lives.
